STATINTL

Dear Gene:

Hope you found Oberammergau as enjoyable as we did. That area of the world is one of my favorite places, and I recall that Bud had a particular fondness for Berchtesgaden.

We received the word that Alan H. would like to see Carl and Dave on the 27th or 28th of April. This is fine, and perhaps we should settle on the 27th, and if necessary carry over to the 28th. Carl would like to talk with Alan for about an hour and leave the detailed discussions to Dave's people. We are tentatively arranging for Alan to havelluncheon with Carl on the 27th.

When you get back and are writing your monthly letter, will you experiment and separate the items so that they can be handled more conveniently? This would be most appreciated by yours truly.

There is nothing new of any consequence here. One of the purposes of this note is to keep my promise to send off communications with some regularity to ensure that you have a feel for any quick developments at home and that we are really thinking of you most of the time. Incidentally, Bob C.'s people sent a reply to your suggestion about getting someone over there to follow up on the speech business. As we mentioned in a separate letter to you, *it is not* feasible for some months. However, they appreciate the thought behind your suggestion.

Best regards,

STATINTL
